Issue Publics

*50% of respondents were randomly assigned to the **ip_municipal** and **ip_municipal_open**, 25% were randomly assigned to **ip_provincial** and **ip_provincial_open**, and 25% were randomly assigned to the **ip_federal** and **ip_federal_open**.*

ip_municipal In municipal politics, some people have an issue they care about more than other issues. They might think about the issue a lot. They might pay special attention to news about that issue, even when it’s not “front-page” news. They might focus on what municipal political candidates say about that issue, and decide who to vote for on the basis of that issue. Or they might just care about the issue a lot.

In **municipal politics**, is there an issue like that for you?

- No (0)
- Yes (1)

ip_municipal_open In just a sentence or two, what issue is it that you care about? [OPEN]

ip_provincial In provincial politics, some people have an issue they care about more than other issues. They might think about the issue a lot. They might pay special attention to news about that issue, even when it’s not “front-page” news. They might focus on what provincial political candidates say about that issue, and decide who to vote for on the basis of that issue. Or they might just care about the issue a lot.

In **provincial politics**, is there an issue like that for you?

- No (0)
- Yes (1)

ip_provincial_open In just a sentence or two, what issue is it that you care about? [OPEN]

ip_federal In federal politics, some people have an issue they care about more than other issues. They might think about the issue a lot. They might pay special attention to news about that issue, even when it’s not “front-page” news. They might focus on what federal political candidates say about that issue, and decide who to vote for on the basis of that issue. Or they might just care about the issue a lot.

In **federal politics**, is there an issue like that for you?

- No (0)

- Yes (1)

ip_federal_open In just a sentence or two, what issue is it that you care about? [OPEN]

Allocational Desirability Module

*These questions were only answered by those who selected “urban” (1) or “suburban” (2) in **placetype_best**. 9% of those respondents were randomly assigned to complete this module. They answered a matrix question with a random sample of twelve of the items below. The other 91% completed the “Allocation and Ideology - General Frame” and “Allocation and Ideology - Local Frame” modules. Each respondent was randomly assigned to answer 12 items in this module.*

all_des_preamble We would like to understand what kinds of municipal investments are desirable for a local neighbourhood, and which kinds of investments are more challenging for local neighbourhoods. For each of these proposals, please tell us if you think they are **desirable** or **undesirable** for a local neighbourhood.

Remember, **we do not need to know if you personally support the proposal**. Instead, we want to know if you think these investments tend to be beneficial for the people who live near where they are located.

AI and Public Policy Experiment

Random assignment with equal probability to either question set 1A or 1B.

QUESTION SET 1A: PRIVATE SECTOR

Artificial Intelligence (AI) involves machines and software that can perform tasks typically requiring human intelligence, such as learning, problem-solving, and decision-making.

Consider a company that is thinking about adopting new AI tools like ChatGPT. Some of the daily tasks they think workers can use these technologies for include report writing and editing, drafting emails, analyzing company data to identify trends, and communicating with customers in real-time.

Based on this information, we're interested in knowing *your thoughts* on the potential effects of this new technology. Do you think that introducing the new technology will ... ?

Matrix question. Response Options: Increase (1), No Change (2), Decrease (3), Don't Know (-99)

- **ai_priv_1** increase or decrease the quality of the services/products the company provides?
- **ai_priv_2** increase or decrease the price consumers pay for the services/products the company provides?
- **ai_priv_3** increase or decrease demand for the company's services/products?
- **ai_priv_4** increase or decrease the company's profits?
- **ai_priv_5** increase or decrease wages for some of the company's workers?
- **ai_priv_6** increase or decrease company hiring of new workers?

ai_priv_com Do you think AI tools like ChatGPT complement the workers' skills (makes them better at their jobs) or substitute the worker's skills (replaces them in their jobs)?

- Complement (1)
- Neither (2)
- Substitute (3)
- Don't Know (-99)

QUESTION SET 1B: PUBLIC SECTOR

Artificial Intelligence (AI) involves machines and software that can perform tasks typically requiring human intelligence, such as learning, problem-solving, and decision-making.

Consider a local government that is thinking about adopting new AI tools like ChatGPT in its departments. Some of the daily tasks it thinks municipal workers can use these technologies for include report writing and editing, drafting emails, analyzing municipal data to identify trends, and communicating with residents in real-time.

Based on this information, we're interested in knowing *your thoughts* on the potential effects of this new technology: Do you think that introducing the new technology will ... ?

Matrix question. Response Options: Increase (1) / No Change (2) / Decrease (3) / Don't Know (-99)

- **ai_pub_1** increase or decrease the quality of the services the municipality provides to residents?
- **ai_pub_2** increase or decrease the cost to the taxpayers for delivering municipal services?
- **ai_pub_3** increase or decrease demand for municipal services?
- **ai_pub_4** increase or decrease the municipality's budget savings (i.e., the difference between revenues and expenses)?
- **ai_pub_5** increase or decrease wages for some municipal workers?
- **ai_pub_6** increase or decrease municipal hiring of new workers?

ai_pub_com Do you think that AI tools like ChatGPT will complement municipal workers' skills (make them better at their jobs) or substitute workers' skills (replace them in their jobs)?

- Complement (1)
- Neither (2)
- Substitute (3)
- Don't Know (-99)

QUESTION SET 2

Respondents in 1A above received the private sector "companies" treatment below.

Respondents in 1B above should receive the public sector treatment ("government workers") below.

ai_policy Imagine you have the opportunity to craft a policy plan to help with the challenges of technological change, including new artificial intelligence technologies. You can choose no more than three of the policies from the list below. If it were up to you, which three or fewer policies would you like to see implemented?

- Expand social spending, such as unemployment benefits, to support workers facing potential job loss (1)
- Reduce the number of immigrants entering the country and your communities for work (2)
- Ban the use of generative AI for [government workers / companies] (3)
- Make it harder for [governments / firms] to adopt new technologies or machines, if they reduce salaries or jobs (4)
- Give trade unions or workers more power to decide whether new technologies are adopted at work (5)
- Invest in education and other programs to re-skill workers for new jobs (6)

Consequences of Provincial Invasion - Survey Experiment

inv_control

This control was assigned to half of all respondents

In Canada, municipal governments typically have responsibility for many areas of public policy, such as land-use planning, local utilities, policing and fire, parks and recreation, economic development, and many other areas.

inv_treat1

This treatment was assigned to half of respondents in Ontario and Quebec

In Canada, municipal governments typically have responsibility for many areas of public policy, such as land-use planning, local utilities, policing and fire, parks and recreation, economic development, and many other areas. In 2018, Ontario's provincial government cut the size of Toronto's city council in half after some candidates had already begun campaigning. Then, in 2023, the provincial government changed the powers of local mayors without consulting municipalities.

inv_treat2

This treatment was assigned to half of respondents in Atlantic Canada

In Canada, municipal governments typically have responsibility for many areas of public policy, such as land-use planning, local utilities, policing and fire, parks and recreation, economic development, and many other areas. In 2022, Nova Scotia's provincial government passed an amendment that allows the provincial government to nullify a municipal bylaw enacted by the Halifax municipal government, without even consulting Halifax's municipal council.

inv_treat3

This treatment was assigned to half of respondents in Western Canada

In Canada, municipal governments typically have responsibility for many areas of public policy, such as land-use planning, local utilities, policing and fire, parks and recreation, economic development, and many other areas. In 2024, Alberta's provincial government introduced reforms that would allow it to remove councillors from office and override municipal bylaws.
